Q.9 Historically, MPs who left Parliament after an election received a resettlement payment. This payment recognised the unstable nature of their work and that MPs do not have the same level of job security or access to the legal protections available to most employees. At the 2010 election, this payment was up to a full year's salary (depending on length of service), and was paid to all MPs leaving the House, whether they lost their seat or chose to leave. At the next election, this payment will be limited to a maximum of six months' salary, and will only be paid to MPs who contest their seat and lose. Which, if any, of the following would best describe your attitude towards what MPs' should receive as a resettlement payment?

Q.9 Historically, MPs who left Parliament after an election received a resettlement payment. This payment recognised the unstable nature of their work and that MPs do not have the same level of job security or access to the legal protections available to most employees. At the 2010 election, this payment was up to a full year's salary (depending on length of service), and was paid to all MPs leaving the House, whether they lost their seat or chose to leave. At the next election, this payment will be limited to a maximum of six months' salary, and will only be paid to MPs who contest their seat and lose. Which, if any, of the following would best describe your attitude towards what MPs' should receive as a resettlement payment?
